

Master Recycler Composter (MRC) Training Application

The **Master Recycler Composter Program** is a free community education program about resource conservation and waste reduction. Participants receive 40 hours of training about waste reduction, recycling, home composting, and household hazardous wastes. In return for the training, Master Recycler Composters (MRCs) share their knowledge and skills with others by volunteering 40 hours of public outreach. The information MRCs bring to their homes, workplaces, neighborhoods, and schools helps King County residents make informed decisions about reducing waste. For more information, call Karen May at 206-296-4353; 711 (TTY Relay) or visit our website at www.metrokc.gov/dnrp/swd/mrc.

Applications are accepted throughout the year for upcoming trainings. To apply, fill out this application and return it to: **Karen May, Master Recycler Composter Program, King County Solid Waste Division, King Street Center, 201 S. Jackson Street, Suite 701, Seattle, WA 98104** or karen.may@metrokc.gov.

Natural Resources and Parks
Solid Waste Division

Disability accommodations, including alternate formats,
are available upon request.

Why you are interested in becoming a Master Recycler Composter?

Are you involved in any community groups or organizations (Scouts, Chamber of Commerce, Community Council, PTA, Garden Club)?

Do you have any special skills that will contribute to effective community outreach (for example: teaching, public speaking, community activism, fluency in a non-English language)? Note: Special skills are not required to be an MRC.

In exchange for the free training, program graduates are expected to volunteer 40 hours of outreach in King County, outside of Seattle. Do you think you will be able to fulfill this commitment?

What days of the week and times are you available to provide your outreach?

Thanks for your interest!
